

*This is how we demonstrate democracy*

We have Individual Learning Plans and use them so we can discuss your progress together

You participate in learner voice forums both inside and outside learning sessions

Together we use surveys to flag up areas for change and then we act on suggestions that have been made

We have a democratic learning process with everyone taking their turn and listening to and respecting others

We democratically establish our own agreements for our behaviour

We all have a voice and together we explore choices and their consequences
