

KIRKLEES COUNCIL

(Off Street Parking Places) (No. 1) Order 2022

Statement of Reason for proposing to make the Order

The Council intends to take over enforcement powers for the part of the public car park fronting Huddersfield Railway Station, specifically the spaces fronting the Station not subject to the requirement to pay for parking and subject to the 1-hour maximum stay.

It is intended that the spaces will be free to use to rail users but will be subject to a maximum stay of 20 minutes.

The existing restrictions have been enforced by a private company on behalf of the Railway Station operators but as this is council land it has been agreed that the council will enforce it with the intention that this will lead to the effective use of the bays encouraging turnover of vehicles for the benefit of rail users.
