ONCE again for supporting LIDL's proposal to open a new store in New Hay Road Huddersfield A Large Supper Market is long over due at this side of town for the residents this would help people having to travel miles for a large shop once a week the amount of new properties that have been built with no thought for facilities and services for people in this area. This facility is long over due and it's beggars belief that you are still dragging your feet to get this moving .Lets hope that in the new year we get some movement. Yours sincerely
