

Subject: PLANNING PERMISSION SUPPORT

PLANNING REFS:- 2020/93308

I write to support the above application on the grounds that it is a well planned, modern addition to the area and will be beneficial to many residents.

Other added benefits include an essential large car park area, plus 2 modern, rapid electric charging points and additional employment of approx 40 full and part-time jobs.

Altogether a welcome improvement in an area in which it would be a popular and beneficial addition.

Kind regards --
