---

I am strongly against the lidl store and i am absolutely disgusted in their behaviour. they keep sending information on how to support them and the leaflets they are sending are asking for our opinion however if you go onto the site there is only an option to support the site not oppose the site. no wonder they have got so many comments for the support it is the only option they are giving. so the people who want to oppose do not know how to do it.

<https://www.lidl-newheyroad.com/> look at this link and you will see it has the option to click yes to agree but no where to oppose

aldi has already been approved ad we have choice up here

we do not need a lidl store built up in this area also the buildings next to the store are both grade 2 listed buildings and this development will cause them harm.

further to this their application has already been rejected and they have submitted another one with very little changes and none of the concerns addressed
